

Installation Guide

Safety Information - Read Before Installation

After choosing a suitable location that meets all the requirements of the safety information install the unit following the steps overleaf.

- Carefully unpack all parts and check for damage or missing parts before commencing installation.
- Installation of this product must be carried out by a qualified electrical contractor.
- Shut off power at the fuse box or circuit breaker box.
- If necessary, remove old fixture and all mounting hardware from the junction box.
- Be sure to follow the steps in the order given.
- The supply wires must be rated for at least 90°C
- This product must be installed in accordance with all applicable

installation codes by a person familiar with the construction and operation of the product and the hazards involved.

- Ensure that the support for the luminaire is of sufficient structural strength and that any fixing screws do not interfere with the connecting cables.
- The light must be mounted on a non-flammable surface as a fixed luminaire, and is not suitable for portable use.
- The unit can get very hot during use. Switch the product off and allow to cool before handling or changing bulbs.
- Ensure adequate ventilation space is allowed between the unit and any object above, in front or to either side of the unit. Suggested minimum space is 19½" above and 19½" on all sides.
- To prevent tarnishing, it is advisable to wear gloves at all times when handling the product.

Care Instructions - Read Before Installation

- This box contains fragile and valuable goods that have been carefully packed. Please take utmost care in unpacking the parcel as damage can occur in this process.
- Please be sure you have received the correct number of boxes i.e. 1 of 2, 2 of 2 etc.
- Under no circumstances should the product be lifted out by the neck or light fitting.
- If you have received any damaged goods or are missing any part of your order, please contact our sales office as soon as possible

Recycling

- Recyclable packaging used, please consult with your local recycling centre for further information.
- Waste electrical products should not be disposed of with conventional household waste. Please recycle all parts when possible.

Cleaning Instructions

- Brass** - all types: Use a soft dry lint free cloth
- Bronze, Nickel, Silver & Chrome:** Use a dry cloth only, no chemical cleaners
- Glass:** We recommend using a strong alcohol such as isopropyl alcohol. Note: some modern cleaning solutions can contain chemicals that can leave a greasy film on glass.
- Gilt Wood:** Use a dry cloth only
- Ceramic:** Use a damp cloth only
- Wood:** Wax polish i.e. Antique wax
- Alabaster:** Dust with a soft brush or a clean dry cloth. Avoid water or water-based cleaners. Any marks that cannot be removed by dusting must be cleaned by a specialist.
- Lacquered Furniture:** Furniture polish
- Crystal:** Damp cloth
- Card/Laminated Shades:** Use a Feather duster only
- Silk Shades:** Gently tap to lift dust
- Needlework:** Dry-clean
- Any decorative parts made from other materials must be removed and cleaned separately to avoid damage - e.g. alabaster.

1. Remove the screws on the cover located on the underside of the product. This will expose the sealed terminal block.

2. Measure and mark out the wall fixings prior to installation. Screw suitable fixings to the two top mounting locations.

Ensure the fixings protrude from the wall approximately 8mm

3. Pierce the grommet in the back of the product and feed the household cabling through the grommet into the terminal enclosure at the bottom of the product.

4. Having identified the household wiring, connect the building supply and the product cables together in the wire connectors as shown above. 3/8" of bare conductor should be exposed for the terminations.

5. Position the product onto the wall by lining up the product's location holes to that of the mounting screws.

6. Reattached the cover previously removed ensuring it is correctly secured to the product.

7. Secure the bottom of the product to the wall using mounting screws. Ensure the product is secured to the wall.

8. Apply a 3mm bead of silicone around the perimeter of the product. Ensure there is a complete seal between the product and the wall.

9. To access the bulb, lift the latch to release the door.

10. To replace the bulb, unscrew the glass cap on the lamp holder and remove the bulb.

11. When the bulb has been replaced, replace the gasket and the glass cap ensuring the cap is secured tightly. NOTE: The cap must be tightly secured, failure to secure the cap will result in water ingress and risk of electrical shock.

12. After accessing the bulb, gently close the door. Close the latch and ensure it is secure.

Français

1. Retirez les vis du couvercle situé sur la face inférieure du produit. Le bornier scellé est alors exposé.
2. Mesurez et marquez les fixations murales avant l'installation. Vissez des fixations appropriées aux deux emplacements de montage supérieurs. Assurez-vous que les fixations dépassent du mur d'environ 8mm.
3. Faites passer le câblage domestique par le trou de câble dans le boîtier de la borne au bas du produit.
4. Après avoir identifié le câblage domestique, connectez l'alimentation du bâtiment et les câbles du produit ensemble dans les connecteurs de fils comme indiqué ci-dessus. 3/8" de conducteur nu doit être exposé pour les terminaisons.
5. Positionnez le produit sur le mur en alignant les trous d'emplacement du produit avec ceux des vis de montage.
6. Remettez le couvercle retiré précédemment en place en vous assurant qu'il est correctement fixé au produit.
7. Fixez le bas du produit au mur à l'aide de vis de montage. Assurez-vous que le produit est bien fixé au mur.
8. Appliquez un cordon de silicone de 3 mm sur le périmètre du produit. Assurez-vous qu'il y a un joint complet entre le produit et le mur.
9. Pour accéder à l'ampoule, tirez sur le loquet afin de libérer la porte.
10. Pour remplacer l'ampoule, dévissez le bouchon en verre du support de lampe et retirez l'ampoule.
11. Une fois l'ampoule remplacée, remettez le joint et le bouchon en verre en vous assurant que le bouchon est bien fixé. REMARQUE : Le bouchon doit être fermement fixé. Si le bouchon n'est pas fixé, il y aura une infiltration d'eau et un risque de décharge électrique.
12. Après avoir accédé à l'ampoule, fermez doucement la porte. Fermez le loquet et assurez-vous qu'il est sécurisé.

Español

1. Quite los tornillos de la tapa ubicada en la parte inferior del producto. Esto expondrá el bloque de terminales sellado.
2. Mida y marque las fijaciones de la pared antes de la instalación. Atornille las fijaciones adecuadas en los dos lugares de montaje superiores. Asegúrese de que las fijaciones sobresalgan de la pared aproximadamente 8mm.
3. Pase el cableado de la casa a través del orificio del cable de la caja de terminales situado en la parte inferior del producto.
4. Una vez identificado el cableado doméstico, conecte el suministro del edificio y los cables del producto en los conectores de cables como se muestra arriba. Se deben exponer 3/8" de conductor desnudo para las terminaciones.
5. Alinee los orificios de ubicación del producto con los de los tornillos de montaje para colocarlo en la pared.
6. Vuelva a colocar la cubierta que quitó anteriormente y compruebe que esté correctamente fijada al producto.
7. Asegure la parte inferior del producto a la pared con tornillos de montaje. Compruebe que el producto esté asegurado a la pared.
8. Aplique una bola de silicona de 3 mm alrededor del perímetro del producto. Cerciórese de que se forme un sello completo entre el producto y la pared.
9. Para acceder a la bombilla, tire del pestillo para abrir la compuerta.
10. Para reemplazar la bombilla, desenrosque la tapa de vidrio del portalámparas y retire la bombilla.
11. Una vez reemplazada la bombilla, cambie la junta y la tapa de vidrio y compruebe que la tapa esté bien asegurada. NOTA: la tapa tiene que estar bien asegurada; si no está bien fijada, se producirá la entrada de agua y el consiguiente riesgo de una descarga eléctrica.
12. Después de acceder a la bombilla, cierre suavemente la compuerta. Cierre el pestillo y asegúrese de que este quede fijado de forma segura.

Deutsche

1. Entfernen Sie die Schrauben an der Abdeckung auf der Unterseite des Produkts. Dadurch wird der vergossene Klemmleiste offengelegt.
2. Messen und markieren Sie die Wandmarkierungen vor der Montage. Schrauben Sie geeignete Befestigungen an die zwei oberen Befestigungsstellen. Stellen Sie sicher, dass die Befestigungen etwa 8mm aus der Wand herausragen.
3. Führen Sie die Hausverkabelung durch das Kabelloch im Anschlussklemmen-Gehäuse unten am Produkt.
4. Nachdem Sie die Haushaltsverkabelung identifiziert haben, verbinden Sie die Gebäudeversorgung und die Produktkabel in den Kabelverbindern wie oben gezeigt. 3/8" des blanken Leiters sollten für die Anschlüsse freigelegt werden.
5. Positionieren Sie das Produkt an der Wand, indem Sie die Aufnahmebohrungen des Produkts mit denen der Befestigungsschrauben ausrichten.
6. Bringen Sie die zuvor entfernte Abdeckung wieder an und stellen Sie sicher, dass Sie korrekt am Produkt befestigt sind.
7. Befestigen Sie den Boden des Produkts mit Hilfe der Befestigungsschrauben an der Wand. Stellen Sie sicher, dass das Produkt an der Wand befestigt ist.
8. Tragen Sie eine 3 mm dicke Silikonraupe um den Umfang des Produkts herum auf. Stellen Sie sicher, dass eine vollständige Abdichtung zwischen dem Produkt und der Wand vorhanden ist.
9. Um an die Glühbirne zu gelangen, ziehen Sie an der Verriegelung, um die Klappe zu entriegeln.
10. Um die Glühbirne zu wechseln, schrauben Sie die Glaskappe auf dem Lampenhalter ab und entfernen die Glühbirne.
11. Wenn die Glühbirne gewechselt wurde, setzen Sie die Dichtung und die Glaskappe wieder auf und stellen dabei sicher, dass die Kappe fest sitzt. BEACHTEN SIE: Die Kappe muss fest sitzen. Wenn die Kappe nicht fest sitzt, tritt Wasser ein und es besteht das Risiko eines Elektroschocks.
12. Nachdem Sie die Glühbirne herausgezogen haben, schließen Sie die Klappe vorsichtig wieder. Schließen Sie den Riegel und vergewissern Sie sich, dass er fest sitzt.

Italiano

1. Rimuovere le viti dalla copertura situata sul lato inferiore del prodotto. Ciò esporrà il blocco terminale sigillato.
2. Misurare e segnare i sostegni a parete prima dell'installazione. Avvitare sostegni adeguati alle due posizioni di montaggio superiori. Assicurarsi che i sostegni sporgano dalla parete di circa 8mm.
3. Collegare all'impianto elettrico domestico attraverso il buco per i cavi situato all'estremità inferiore del prodotto.
4. Dopo aver identificato il cablaggio domestico, collegare l'alimentazione dell'edificio ai cavi del prodotto insieme nei connettori dei cavi come mostrato sopra. 3/8" di conduttore nudo dovrebbero essere scoperti per le terminazioni.
5. Posizionare il prodotto sulla parete allineando i fori di posizione del prodotto a quelli delle viti di montaggio.
6. Riattaccare la copertura precedentemente rimossa assicurandosi che sia correttamente fissata al prodotto.
7. Fissare la parte inferiore del prodotto alla parete utilizzando le viti di montaggio. Assicurarsi che il prodotto sia fissato alla parete.
8. Applicare un cordone di silicone da 3 mm lungo il perimetro del prodotto. Assicurarsi che la sigillatura tra il prodotto e la parete sia completa.
9. Per accedere alla lampadina, tirare il fermo per rilasciare lo sportello.
10. Per sostituire la lampadina, svitare la copertura di vetro sul supporto della lampada e rimuovere la lampadina.
11. Una volta sostituita la lampadina, riposizionare la guarnizione e la copertura di vetro assicurandosi che la copertura sia fissata saldamente. NOTA: La copertura deve essere fissata saldamente, onde evitare la penetrazione di liquidi e il conseguente rischio di shock elettrico.
12. Dopo aver operato sulla lampadina, chiudere delicatamente lo sportello. Richiudere il fermo e assicurarsi che sia ben saldo.
