

Installation Guide

Safety Information - Read Before Installation

After choosing a suitable location that meets all the requirements of the safety information install the unit following the steps overleaf.

- Carefully unpack all parts and check for damage or missing parts before commencing installation.
- Installation of this product must be carried out by a qualified electrician.
- Luminaire is for indoor use only
- Disconnect the electrical supply before installation. Switch off the electricity at the fuse box by removing the relevant fuse or switching off the circuit breaker before proceeding with the installation.
- Install should be carried out in accordance with the wiring regulations and building codes applicable to the country of installation.

- Before making any fixing hole(s), check that there are no obstructions hidden beneath the mounting surface such as pipes or cables.
- Ensure that the support for the light is of sufficient structural strength and that any fixing screws do not interfere with the connecting cables.
- The unit can get very hot during use. Ensure the unit has cooled before handling or changing bulbs.
- Ensure adequate ventilation space is allowed between the unit and any object above, in front or to either side of the unit. Suggested minimum space is 0.5m above and 0.5m on all sides.
- To prevent tarnishing, it is advisable to wear gloves at all times when handling the product.

Care Instructions - Read Before Installation

- This box contains fragile and valuable goods that have been carefully packed. Please take utmost care in unpacking the parcel as damage can occur in this process.
- Please be sure you have received the correct number of boxes i.e. 1 of 2, 2 of 2 etc.
- Under no circumstances should the product be lifted out by the neck or light fitting.
- If you have received any damaged goods or are missing any part of your order, please contact our sales office as soon as possible

Recycling

- Recyclable packaging used, please consult with your local recycling centre for further information.
- Waste electrical products should not be disposed of with conventional household waste. Please recycle all parts when possible.

Cleaning Instructions

Brass - all types: Use a soft dry lint free cloth

Bronze, Nickel, Silver & Chrome: Use a dry cloth only, no chemical cleaners

Glass: We recommend using a strong alcohol such as isopropyl alcohol. Note: some modern cleaning solutions can contain chemicals that can leave a greasy film on glass.

Gilt Wood: Use a dry cloth only

Ceramic: Use a damp cloth only

Wood: Wax polish i.e. Antique wax

Alabaster: Dust with a soft brush or a clean dry cloth. Avoid water or water-based cleaners. Any marks that cannot be removed by dusting must be cleaned by a specialist.

Lacquered Furniture: Furniture polish

Crystal: Damp cloth

Card/Laminated Shades: Use a Feather duster only

Silk Shades: Gently tap to lift dust

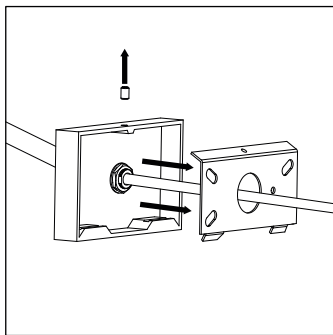

Needlework: Dry-clean

-Any decorative parts made from other materials must be removed and cleaned separately to avoid damage - e.g. alabaster.

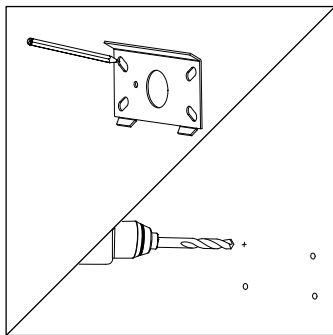

Informations de sécurité - À lire avant l'installation

Après avoir choisi un emplacement approprié qui répond à toutes les exigences des informations de sécurité, installez l'appareil en suivant les étapes indiquées au verso.

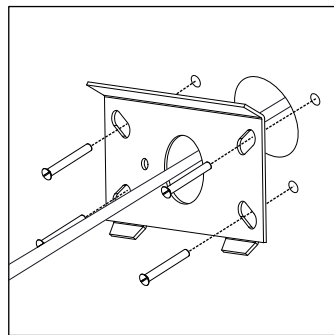

- Déballiez soigneusement toutes les pièces et vérifiez qu'elles ne sont pas endommagées ou manquantes avant de commencer l'installation.
- L'installation de ce produit doit être effectuée par un électricien qualifié.
- Le luminaire est destiné à un usage intérieur uniquement.
- Débranchez l'alimentation électrique avant l'installation. Coupez l'électricité au niveau de la boîte à fusibles en retirant le fusible correspondant ou en coupant le disjoncteur avant de démarrer l'installation.
- L'installation doit être effectuée conformément aux réglementations en matière de câblage et aux codes du bâtiment applicables au pays d'installation.
- Avant de faire le(s) trou(s) de fixation, vérifiez qu'il n'y a pas d'obstruction cachée sous la surface de montage, comme des tuyaux ou des câbles.
- Assurez-vous que le support de la lampe est suffisamment solide et que les vis de fixation n'interfèrent pas avec les câbles de branchement.
- L'appareil peut devenir très chaud pendant son utilisation. Assurez-vous que l'appareil a refroidi avant de manipuler ou de changer les ampoules.
- Veillez à ce qu'un espace de ventilation suffisant soit prévu entre l'appareil et tout objet situé au-dessus, devant ou de chaque côté de l'appareil. L'espace minimum suggéré est de 50 cm au-dessus et de 50 cm sur tous les côtés.
- Pour éviter le ternissement, il est conseillé de porter des gants à tout moment lors de la manipulation du produit.

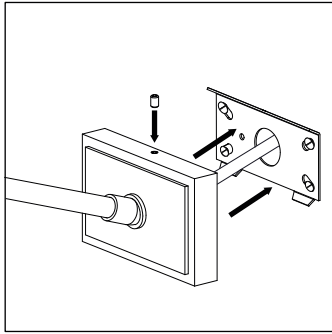

1. Remove the grub screw and the backplate from the product.

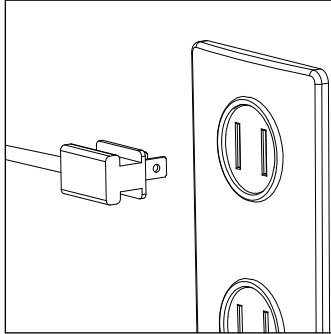

2. Using the back plate as a guide, mark drill mounting holes into the mounting surface.

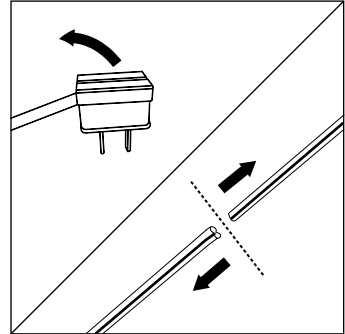

3. Thread the product cabling through the cable hole in the back plate. Attach the backplate onto the wall using suitable fixings.

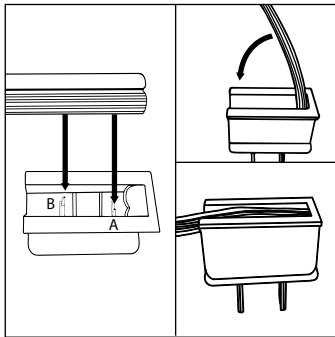

4. Reattach the product to the backplate by engaging the lower tabs, align with top ledge of back plate and secure with the grub screw.

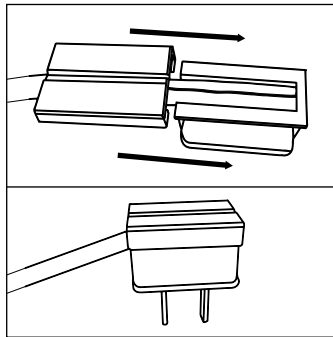

5. Plug the product into the main power supply.

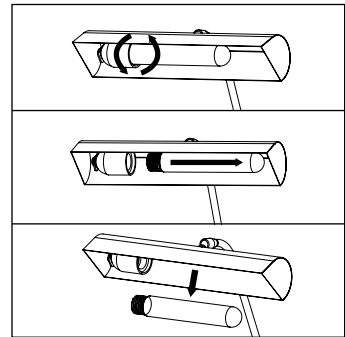

6. To change the plug cable length, unplug the product and remove the plug supplied and cut the cable to the desired length.

7. Using the extra plug provided. Line up the cable so that the ribbed side lines up with pin A and the smooth side to pin B. Push the cable down into the cable hole as far as possible and bend the cable onto the metal pins, piercing the cable.

8. Slide the cap onto the top of the plug securing the cable.

9. To re-lamp the product, first switch off and allow to the product to cool. Unscrew the bulb and remove carefully. When replacing the bulb take care to not overtighten.
